Re: Notification of Standing for San Mateo County, Assessor-County Clerk-Recorder, RFP 1255 - Microfilm to Digital Conversion

---

Thank you all very much for your participation in the request for proposal process for the San Mateo County Recorder's Office Microfilm to Digital Conversion project. We are aware of and appreciate the great deal of time and work that went into your response.

Assessor-County Clerk-Recorder Mark Church has decided to move forward with a recommendation from the evaluation committee to develop a contract with Ikon Office Solutions.

When a contract is finalized and the Board of Supervisors has approved the contract, proposals will become available for public disclosure.
